Forecast for Monday 08 Aug 2022

Weather: Overnight there's a chance of some patchy cloud in the far east of Snowdonia, but elsewhere there will be clear skies. After dawn it will be sunny day for all, with a few spots of fair weather cloud here and there in the morning. As evening approaches, it's expected to be cloudier at times, though there will still be plenty of sunny intervals.

Chance of cloud-free hill tops above 800m: 90%.

Low Cloud and visibility: In the east, patchy cloud above 400m is possible until dawn. All cloud lifting above summits soon after dawn. Mist or fog patches developing within valleys but clearing quickly after dawn. Very poor visibility within cloud and any mist or fog. Otherwise generally excellent visibilities, with very good air clarity allowing distant hills to be clearly visible.

Valley	13/13	13/13	14/14	18/18	19/18	19/18	18/18	16/16	14/14
Freezing Level*	2000m	1900m	1900m	1800m	1800m	2300m	2500m	2500m	2400m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels remain high, so adequate sun protection is recommended.

Forecast for Tuesday 09 Aug 2022

Weather: Another dry and warm day, although there is likely to be a little more cloud compared to Monday, which may turn the sunshine hazy at times.

Maximum wind: Variable, 5-10 mph

Chance of cloud-free hill tops above 800m: 90%

Low Cloud and visibility: All cloud above summits. Generally excellent visibilities with very good air clarity allowing distant hills to be clearly visible. Reducing overnight to good.

Temperature: **Valleys:** Plus 12 Celsius to Plus 24 Celsius
At 800m: Plus 9 Celsius to Plus 20 Celsius
Freezing level: Well above summits.
